

PLANNED MAINTENANCE PROGRAM

The following services are offered:

Battery Planned Maintenance -

- ◆ Visual inspection of all components: cables, connectors, vent caps, cell covers, compound, tray, single point watering, etc.
- ◆ Voltage readings on every cell and specific gravity readings of target cells
- ◆ Replacement of missing or damaged vent caps at no charge
- ◆ Replacement of damaged connectors at no charge
- ◆ Battery cables will be spot tied in correct position
- ◆ Water additions will be made during inspection
- ◆ Minor cable damage will be repaired with heat shrinkable tubing at no charge

Battery Wash-

Neutralization and cleaning of battery (in self-contained wash station if required)

Charger Planned Maintenance -

- ◆ Visual inspection of all components: cables, connectors, wiring, ammeters, timers, control boards, contact tips
- ◆ Testing of charger operations for safety and accuracy
- ◆ Charge rates are checked, recorded, and adjusted if necessary
- ◆ Replacement of damaged connectors at no charge
- ◆ Minor cable damage will be repaired with heat shrinkable tubing at no charge
- ◆ Charger cabinet will be cleaned externally
- ◆ Charger will be blown out with air compressor

Battery Fleet Reports-

- ◆ Computer records (inspection report, historical record of repairs, battery voltage tracking, fleet age reports and graphs)
- ◆ Safety and maintenance seminars/employee training
- ◆ OSHA/EPA compliance reports
- ◆ Included with Battery Planned Maintenance

HOW OFTEN WILL THE PLANNED MAINTENANCE BE PERFORMED?

We suggest at least quarterly. Depending on the severity of your application, a less frequent or more frequent schedule may be needed.

HOW TO GET STARTED ON OUR PROGRAM...

No contract or signed agreement is required. All that is necessary is your authorization to come in as scheduled and a purchase order number to bill against.

WHAT IS THE COST OF OUR PROGRAM?

BATTERY PLANNED MAINTENANCE- \$25 PER BATTERY

The only other costs would be if we find additional needed repairs, and only if you agree to these repairs. Standard labor and parts rates apply. Replacement or repair of any damaged components covered in this program will only be replaced at no charge during the scheduled maintenance and only after initial repairs are made at inception of program. If repairs are needed before the scheduled maintenance then labor, parts, and travel will be charged.

BATTERY WASH- \$25 PER BATTERY

This price includes disposal of the battery wash water from the self-contained wash station at a water treatment facility.

BATTERY P.M./WASH COMBO- \$45 PER BATTERY

CHARGER PLANNED MAINTENANCE- \$25 PER CHARGER
